

CLAIMS

What is claimed is:

Sub
1/21

(1) A method for providing grain milling services comprising the steps of:
transporting a short flow grain milling process to a location;
receiving grain into the short flow grain milling process;
generating a finished product from said short flow grain milling process.

(2) the method of Claim 1 wherein:
the short flow grain milling process is transported via truck.

(3) the method of Claim 1 wherein:
the short flow grain milling process is transported via train.

(4) the method of Claim 1 wherein:
the short flow grain milling process is transported via airborne transport.

(5) the method of Claim 1 wherein:
the short flow grain milling process is transported via waterborne transport.

(6) A method for milling corn comprising the steps of:
transporting a short flow grain milling process comprising a cleaner, a
degerminator, a first sifter, at least one roller, and a second sifter;
processing grain to produce a selected finished product using said short flow grain
milling process wherein at least a portion of the selected finished product is
obtained directly from the first sifter.
